Muhammad Ali	"What's my name, fool? What's my name?" What Ali kept yelling while winning a 1967 decision against Ernie Terrell, who had insisted on calling him Cassius Clay.
Muhammad Ali	Cassius Clay is a slave name. I didn't choose it, and I didn't want it. I am Muhammad Ali, a free name - it means beloved of God - and I insist people use it when speaking to me and of me.
Muhammad Ali	Champions aren't made in gyms. Champions are made from something they have deep inside them: A desire, a dream, a vision. They have to have last-minute stamina, they have to be a little faster, they have to have the skill and the will. But the will must be stronger than the skill.

Jack Handey	To me, boxing is like a ballet, except there's no music, no choreography, and the dancers hit each other
Wielersport	
This is the text of a note written by Italian cyclist Marco Pantani on nine pages of his passport before his death, and read out at his funeral by his friend and former manager Manuela Ronchi. The note appeared to have been written during a recent trip to Cuba. It was written in Italian and translated by Reuters	<p>For four years I was in every court. I lost the desire to be like every other sportsman. But cycling paid and many youngsters have lost faith in justice. I'm suffering with this letter. The world understands that all my colleagues have been humiliated in their hotel rooms with hidden TV cameras, that tried to ruin many families. After that how can you not hurt yourself? I don't know why I stopped myself in these moments of anger if I made mistakes I'd like to know that there is proof, but when my sporting life and above all my private life was violated I lost a lot. I'm in this country and I want to say that "hasta la victoria" is a great thing for an athlete, but it is more difficult having given your heart for the sport with accidents and injuries. But I always got back up. What is left? Just a lot of anger and sadness for the violence of the judicial system. My true story should be an example for other sports. Rules yes, but equal for everybody. There's not a job where you have to give your blood and where the families of your colleagues are woken up during the night. I was always afraid of being spied on at home,</p>

	<p>in hotels and by TV cameras. I ended up hurting myself to not give up my intimacy, the intimacy of my girlfriend and of other colleagues who also lost, of other families who like me were attacked. Go and see what a cyclist is really like. How many people were involved in my sadness as I tried to make a comeback with my dreams as a man which were muddled by drugs, but after my life as an athlete. If a bit of humanity helps us understand and asks what makes us hope, when you make a real mistake you understand and you fight with your heart.</p> <p>This document is the truth. My hope is that real men or women can read it and defend equal rules in sport for everybody. I'm not a liar, I feel hurt and everybody who believed in me has to speak out.</p>

Lance Armstrong after winning the opening time trial and becoming the leader of the 1999 Tour de France	There was a second supremely sweet moment of victory. "That was for you," I said as I moved past them."
Lance Armstrong	This is my body. And I can do whatever I want to it. I can push it. Study it. Tweak it. Listen to it. Everybody wants to know what I'm on. What am I on ? I'm on my bike busting my ass six hours a day. What are you on ? – Lance Armstrong –
Lance Armstrong	This is not Disneyland, or Hollywood. I'll give you an example: I've read that I flew up the hills and mountains of France. But you don't fly up a hill. You struggle slowly and painfully up a hill, and maybe, if you work very hard, you get to the top ahead of everybody else.
